

Lab 6 Brainstorming Notes

Obj: Creating a grade calculator to calculate our grade for the class.

* GUI interface optional *

Consider user experience

100 possible points for course

Practice Problems = 44 points max

8 Problems

1 - = 2 max
2 - 8 = 6 max each = 42 total

* I may have to provide user input for each of the Practice Problems *

or I could simply ask for total amount of points in this section though it will be less user friendly

Lab 5 = 16 points max

1 - 6 = 2 points = 12 points total

7 = 4 points

Must also consider for labs

Midterms = 20 max

Mid 1 = 10

Mid 2 = 10

Final = 20

* In the end, there are 4 ~~criteria~~ criteria in getting the 100 points*

* Should consider assigning letter grade in result instead of just a number *

~~It is easier to take the~~
